PHAROS

Pharos Cloud Education Edition™

Redefining Campus Printing for Higher Education

Higher education institutions face challenges with legacy print systems, including operational inefficiencies, rising costs, and increased cyber threats. These outdated systems require ongoing maintenance as IT budgets and resources are shrinking.

Tailored to the unique needs of higher-ed, Pharos Cloud Education Edition is an easy-to-use SaaS solution that modernizes print infrastructure, improves the student and faculty print experience, and responds to the dynamic nature of educational environments.

- **Streamline operations.** Simplify day-to-day print operations with a cloud platform that eliminates print servers and reduces on-prem infrastructure.
- **Improve printing experience.** Simplify printing with a consistent and intuitive printing experience from workstations, tablets, and mobile devices to the multi-vendor printer fleet.
- **Enhance security.** Secure the print environment with an ISO 27001 certified and SOC 2 Type II attested platform supporting zero trust security principles.
- **Enable seamless integration.** Leverage our open API to integrate with existing systems and applications.

> "We work with many different vendors and Pharos is by far the best to work with in a higher education environment."

Advanced Solutions for Modern Campus Printing

Easily Manage Campus-Wide Printing
Manage your print environment with a cloud-native platform that eliminates print servers. Control users, printers, print drivers, and queues from a single web interface.

Enable Printing from Anywhere
Eliminate the complexity of off-network printing and easily support printing from mobile devices, tablets, laptops, or web upload as long as users have an Internet connection.

Empower Students with Self-Service
A convenient, web-based User Portal makes it easy for students to manage their print jobs, track account balance, and reset their password.

Recover and Control Print Costs
Hold users accountable by charging back costs to departments, grants, or their own personal account, and set quotas to prevent abuse.

Gain Insights with Analytics
Advanced fleet and print analytics visualize key metrics through modern, intuitive dashboards that drill down to granular, job-level details.

Simplify Print Driver Management
Manage fewer drivers and ensure a consistent printing experience to the multi-vendor printer fleet with Pharos' universal print driver built on the IPP Everywhere standard.

Transforming Higher Education with Pharos Cloud

Pharos Cloud Education Edition combines the user management and cost recovery features required by higher education institutions with enterprise-grade security, scalability, and reliability. Our cloud-native print management platform empowers institutions to streamline print operations, boost IT efficiency, and enhance security while meeting the demands of modern education environments.

Transform your higher education institution's print environment with Pharos Cloud Education Edition. Discover more today!
